

33. Specialized Safety

33.1 Summary

The Specialized Safety screen (Figure 33.1) has three (3) fields to be filled in by the user and two (2) fields, Organization and Date, that are filled in by the system.

Sections 5.3 and 5.4 contain information on the Menu Bar options and the Tool Bar options, respectively. Section 8 has more information about entering information in the data boxes. Section 9 explains how to exit.

33.2 Specialized Safety Screen

Note: Numbers in data boxes indicate corresponding section numbers.

33.2.1 Fields for Specialized Safety

The number in parentheses at the end of each field description refers to the corresponding number in the *DCMC Metrics Guidebook*.

33.2.1.1 Mishaps

Enter the quantity of mishaps that occurred at contractor facilities under the cognizance of the contract administration office during the twelve (12) months preceding the end of the report period. (3.9.1a)

33.2.1.2 Contractor Facilities

Enter the quantity of contractor facilities under the cognizance of the contract administration office at the end of the report period that had contracts that contained safety and fire prevention clauses. *NOTE: The quantity is the same as the total quantity of contractor facilities reported by the contract administration office in its last quarterly specialized safety report DLA(A)2068(Q).* (3.9.1b)

33.2.1.3 Surveys Accomplished

Enter the quantity of contractors under the cognizance of the contract administration office that have contracts that contain safety and fire prevention clauses who had a postaward safety survey accomplished during the period. (3.9.1.1a)
